

	AIRCRAFT GENERAL		1.20.10	P 1
	INTRODUCTION		SEQ 110	REV 15

GENERAL

The A340 is a subsonic long range civil transport aircraft.

ENGINES

The aircraft has four high bypass turbofan engines mounted under the wings.

COCKPIT

The cockpit is arranged for a two-member crew. It also has a place for two observers.

CABIN

The passenger seating layout may be varied to suit operating requirements. The certified maximum is 475 seats (with overwing exits) or 440 seats (without overwing exits).

CARGO

Three cargo compartments are under the cabin floor.
