

Tom A300-600

Maintenance Facility Planing

MFP

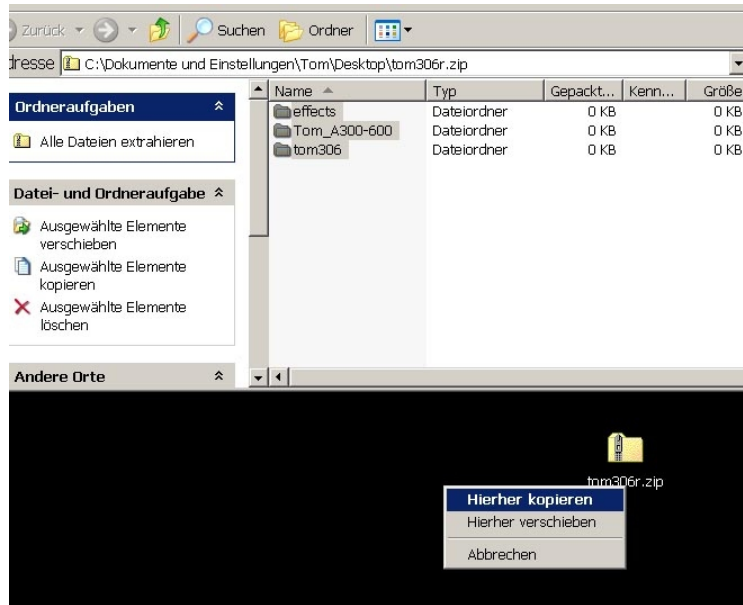

Version 10 02/2010

Tom A300-600

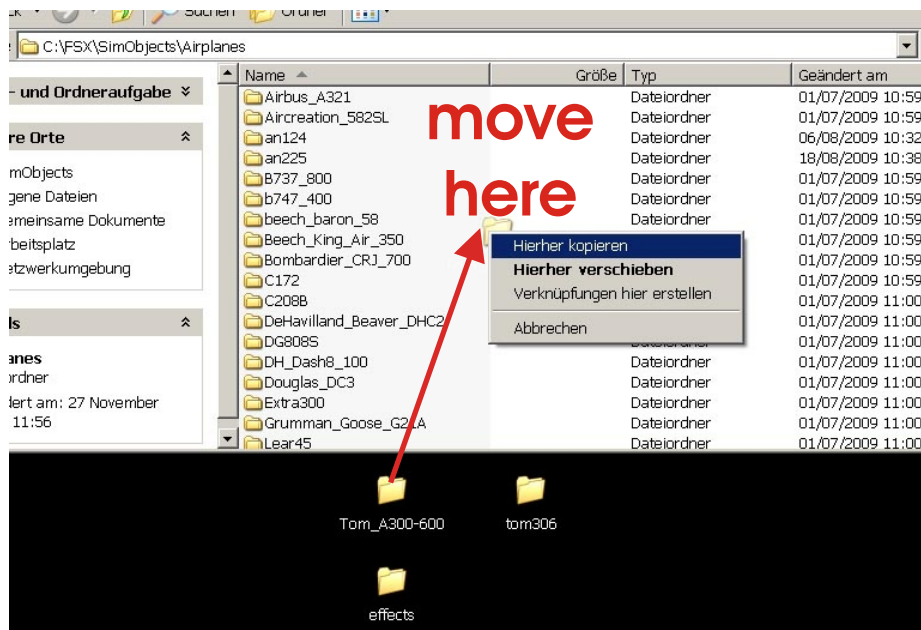

Maintenance Facility Planing MFP

1. Installation in FSX

1) Unzip TOM306R.ZIP to your desktop

2) Move the complete Tom_A300-600 folder into your FSX/SimObjects/Airplanes folder.

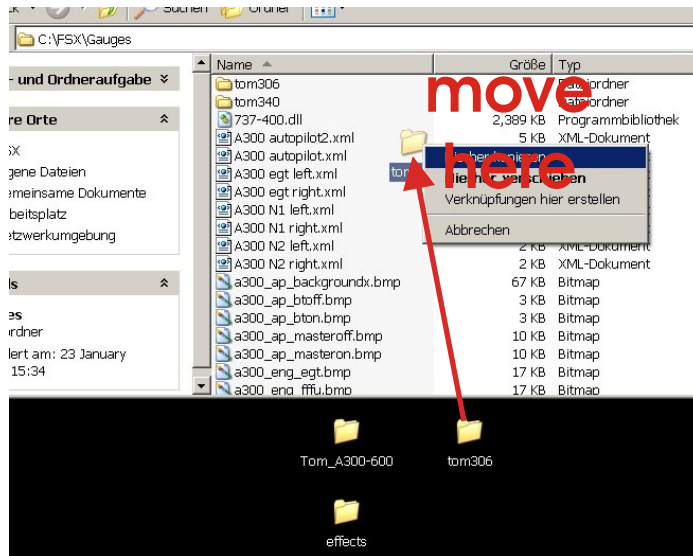

Version 10 02/2010

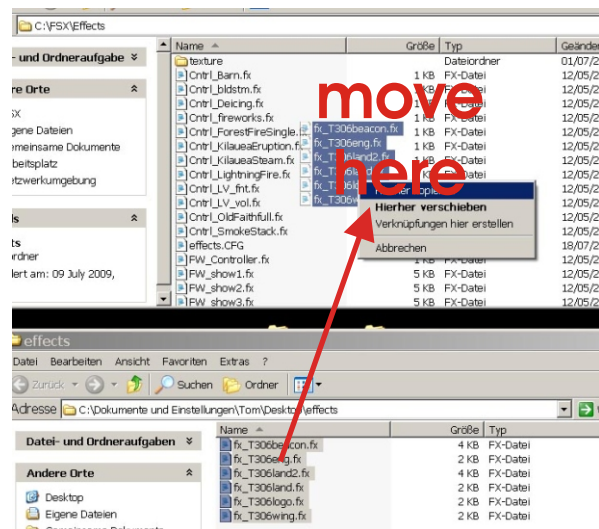

Tom A300-600

Maintenance Facility Planing MFP

3) Move the complete **tom306** folder into your FSX/Gauges folder.

4) Move all files from the **effects** folder into your FSX/Effects folder.

Version 10 02/2010

Tom A300-600

Maintenance Facility Planing MFP

5. KnownBugs

1) Disapearing or flashing lights:

Try to increase the "NUM_LIGHTS" in the fsx.cfg from 8 to 10

2) Flight envelope protection (Fly by wire)

If you want to activate the FSX fly by wire function, just open the **aircraft.cfg** and remove the // in front of the entrie **fly_by_wire=1** of the **[airplane_geometry]** section.

Just notice that the A300-600 does not have a full Fly by wire function.

3) The flightmodel is not as good as it should be since i am not an FDE specialist, so this is all i can do for now. Feel free to change wahtever you want.

4) Multiplayer Mode: As for now, the aircraft is not multiplayer compatible. I dont have a solution yet, but theres a multiplayer compatible mdl in the **model/multiplayer subfolder. Its identical to the normal mdl but does not have all of its animations.**

5) Wingtip or no wingtip.... Thats the question!

Only the very first (14?) A300-600 have been delivered without wingtip. As far as i know, to United Arab Emirates and Kuwait. Since i didnt find models with GE engine type, ive included a simple PW mdl file if anyone wants to make a paint of these.

6) Repaints.

Repaint resources are included. Freeware repaints are allowed. Read the copyright.txt which is included in the main zip file.

**YOU NEED AT LEAST FSX SERVICE PACK
1 OR 2 TO RUN THIS AIRCRAFT.
IF YOU DONT HAVE A SERVICE PACK
INSTALLED, THE AIRCRAFT WILL STAY
TRANSPARENT OR BLACK EXCEPT FOR
THE COCKPIT AND WINGS**
