

Boeing 747-400 Saudi Arabian Airlines

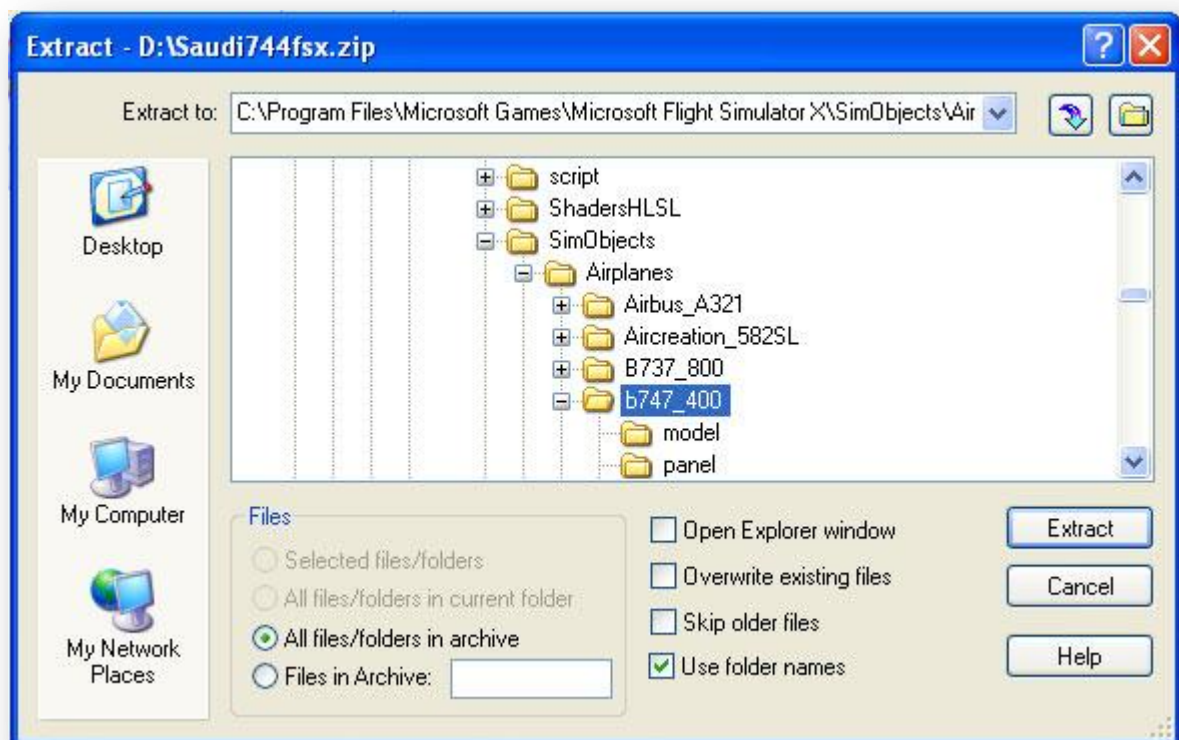

This is a repaint of the Saudi Arabian Airlines default Boeing 747-400 for Microsoft Flight Simulator X.

Repainted by Azrin Jumat & Marwan Abdul latif.

Installation

To install:

1. Use Winzip to extract files into Microsoft Flight Simulator X\SimObjects\Airplanes\b747_400 directory.
2. Make sure "Use folder names" is ticked on the extract menu (see picture below), then click on "Extract".

3. Open aircraft.cfg file found in the b747_400 directory using notepad and edit to include the following:

```
[fltsim.x]

title=Boeing 747-400 Saudi

sim=Boeing747-400

model=

panel=

sound=

texture=HZAIZ

kb_checklists=Boeing747-400_check

kb_reference=Boeing747-400_ref

atc_id=HZ-AIZ

atc_airline=Saudia

atc_flight_number=1123

atc_heavy=1

atc_parking_types=GATE

ui_manufacturer="Boeing"

ui_type="747-400"

ui_variation="Saudi Arabian Airlines"

ui_typerole="Commercial Airliner"

ui_createdby="Microsoft Corporation"

description="More than 30 years ago, the 747 made its
first trip from New York to London. Since then, it's
become the standard by which other large passenger
jets are judged. Its size, range, speed and capacity
were then, and are now, the best in its class."
```

4. Rename the part at [fltsim.x] for x the values not the same as existing numbers used in aircraft.cfg.
5. Save aircraft.cfg file.
