System Requirements For X-Plane

To fly in the scenery "**Blagoveshensk SFE**" in X-Plane as smoothly as possible, you will need:

minimum:

Processor: **2.93 GHz** or faster •

200 MB free space on the hard drive •

min. **1 GB RAM** (**2 GB recommended**) • **3D** graphics card with min. **256 MB** (**512 MB recommended**) •

For installation of the scenario put the **UHBB_Blagoveshensk** folder in the **Custom Scenery** folder.

**For correct work of the scenario put the
RoadAmur folder in the folder Custom
Scenery**
