End User License Agreement:

This is a RESTRICTED USE LICENSE the provides you only with limited rights. Failure to adhere to this EULA will subject you to civil penalties, financial liability, and in some cases, criminal liability. This End-User License Agreement ("EULA") pertains to "New Scenery Group" 's Copyrighted computer software in the package containing associated media, printed materials, electronic distribution files or electronic documentation. Please read the terms and conditions of this End-User License Agreement ("EULA") before installing or using the Software.

Installing, copying, pasting, downloading, opening folders/zips or otherwise using any part of the software or any associated media, any printed or digital materials, you agree to be bound by the terms of this EULA:

- This is a freeware restricted use license, you cannot share/sold any type of part/files of this package provided or associated to New Scenery Group.
- You cannot change any part/files of this package.
- The use of this scenery is at your own risk. We accept no liability for any damage that this scenery could cause to your computer and/or systems.

All copyright © New Scenery Group. 2013

Installation:

- 1) Open the .zip or the package downloaded.
- 2) Copy and paste the folder "**Rome Fiumicino X 2013**" to:

C:\Program Files\Microsoft Games\Microsoft Flight Simulator X\Addon Scenery

- 3) Active the scenery from the settings area of fsx via the main menu.

General considerations:

Let me introduce the history of the creation of this group and its goals in this project.

New Scenery Group was born with the intention of giving a good freeware scenery of Rome Fiumicino for Microsoft Flight Simulator X. In fact, heretofore there were no versions of this scenery apart from the default one and some projects for fs9 of another group.

We don't create scenery as a profession, so we have limited time to dedicate and we confess that most users of our team had no previous experience. As a lot of comments stated, this scenery can be considered a big upgrade of the default one in order to give a decent and realistic scenery to all Rome's simmers.

This is a list of the work performed:

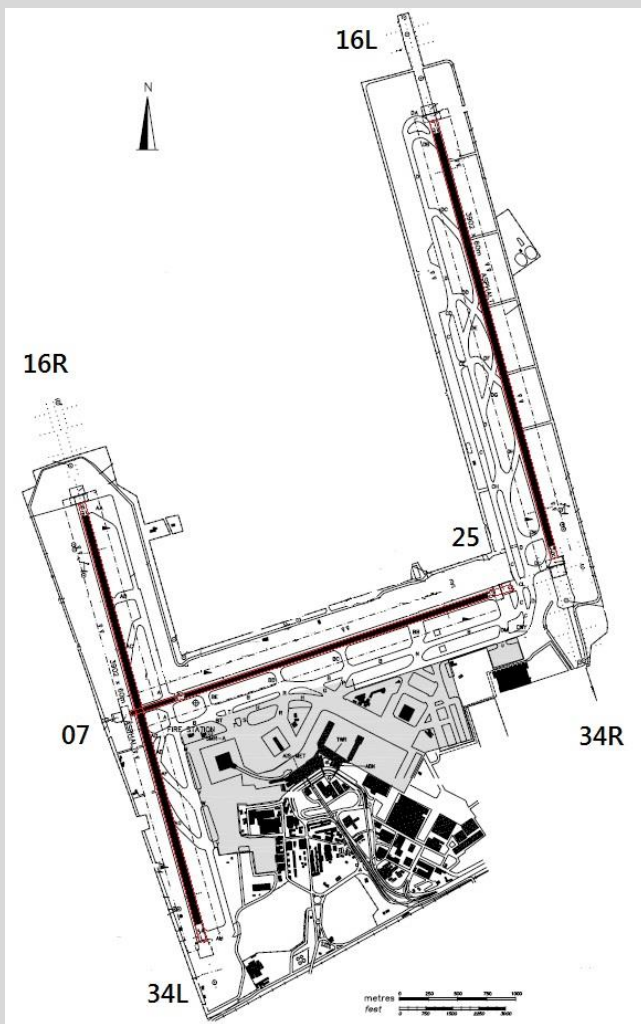

- Upgrade of taxiway and their names;
- Inclusion of markings on the taxiways, runways and parking lots;
- Upgrade of the taxiway and runways taxi vertical signals;
- Check and update radio frequency (VOR, NDB and LOC) across the Lazio;
- Upgrade of the special A380-800 gate;
- The design color of the grass, dry grass, hay bales inside the airport perimeter;
- Addition of airport objects.

Technical data:

Summary	
IATA: FCO	ICAO: LIRF
Airport type:	Public
Operator:	Aeroporti di Roma S.p.A.
Serves:	Rome, Vatican City
Location:	Fiumicino, Rome, Italy, Europe
Hub for	• Air Italy • Alitalia • blu-express • Blue Panorama Airlines • easyJet • Mistral Air • Meridiana Fly
Elevation AMSL:	13 ft / 4 m
Coordinates:	41°48′01″N 012°14′20″E
Website:	www.adr.it
Aeronautical charts:	AIP Enav

Runways			
Direction	Length		Surface
	m	ft	
07/25	3,307	10,850	Asphalt
16R/34L	3,902	12,802	Asphalt
16L/34R	3,902	12,802	Asphalt
16C/34C	3,602	11,818	Asphalt

Runways operation:

“Standard configuration”:

Take-off 25

A318; A319; A320; A321; A330; B737; B777; all cargo aircrafts; other types.

Take-off 16R

A330; A340; A380; B747; B777; B767.

Landing 16R

All heavy/super heavy aircrafts; medium aircrafts for gates T3 or T5.

Landing 16L

All medium aircrafts; all cargo aircrafts; other.

“Strong wind from the sea”:

Take-off 25

All aircrafts types.

Landing 25:

All aircrafts types.

Take-off 16R

A380.

Landing 16R

A380.

“Strong wind from south”:

See “Standard configuration”.

“Strong wind from north”:

Take-off 25

A318; A319; A320;
A321; A330; B737;
all cargo aircrafts;
other types.

Take-off 34L

All heavy/super
heavy aircrafts;
medium aircrafts
from gates T3 or T5.

Landing 34L

All heavy/super
heavy aircrafts;
medium aircrafts
for gates T3 or T5.

Landing 34R

All medium aircrafts;
all cargo aircrafts;
other.

Graphic settings:

Our main purpose was to create a scenery suitable for all computers, with a high frame rate performance. Unfortunately, we partly failed in this goal!

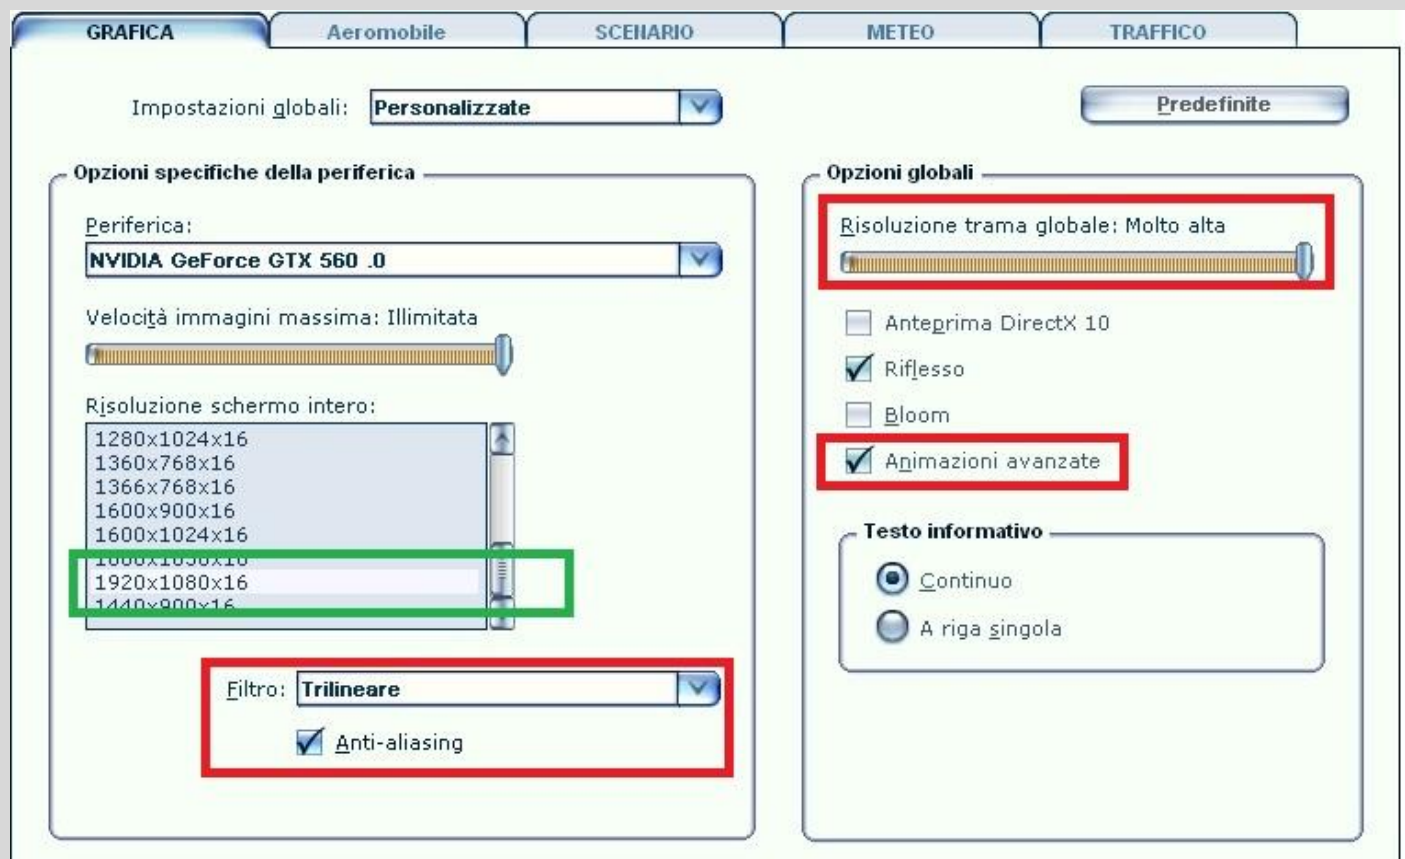

The scenery requires a medium computer in order to have more than 30 frames during the flight. But don't worry about this, it's just an estimated performance level; we suggest you to try it before making any type of conclusions!

- We recommend the below fsx option for a high level of details!

This scenery isn't compatible with Preview DirectX 10 and old version of Flight Simulator, and it works only with DirectX9 and Flight Simulator X SP2 (all version add-on like: Acceleration, Gold Edition, Deluxe, etc...).

Settings highlighted in red: highly recommended!

Settings highlighted in green: not required, but recommended!

- 17/03/2013 **Version 1.00 “Base version”**
- n/a (coming soon) **Version 2.00 “Full version”**

Dedication:

The airport of Rome (Fiumicino) is dedicated to **Leonardo di ser Piero da Vinci**.

Leonardo Da Vinci was an Italian Renaissance polymath: painter, sculptor, architect, musician, scientist, mathematician, engineer, inventor, anatomist, geologist, cartographer, botanist, and writer.

During his life, said:

Once you have tasted flight, you will forever walk the earth with your eyes turned skyward, for there you have been, and there you will always long to return.

Leonardo Da Vinci

Thanks also to:

Thanks to **Patrick Stacchini** and **Fabrizio Floris** for their airport photos and reports.

A great recognition also goes to the Forum of [FlightSimulatorX.it](https://www.flight-simulator.com/forum/flight-simulator-x) for hosting on their servers the download, thank you!!!

If you want to help us please join in our forum and send a review with your impressions about the work done, we will be happy to answer you!
